

PARENT SERVEY

AUGUST 2009

Maintenance of centre

Many parent have ask the necessity of the two clean up days per year. These days enable HOOSH to maintain the high standard of cleanliness in the centre without employing maintenance workers which cost a lot of money.

Money raised goes toward employing trades people when parent cannot do the job.

We have a few options

1. Carry on as is with two clean up days per year where parent can decide to pay levy or help for 2 hours on the day.

I agree with this (please tick )

2. Contract a maintenance person for approximately 3 hours per week. This cost will be added on to the weekly fee.

I agree with this (please tick )

3. Do parents have any other ideas?
