

A Vision Statement.

We believe that families should have access to services and facilities that will enhance their children's opportunities and abilities. We seek to be a resource to parents, students, childcare service providers, teachers and other interested persons and our aim is to provide observation facilities encouraging research together with the sharing of information, knowledge and experience in the area of quality care for school age children.

It is our vision to be the providers of the highest quality child care for children and families in the Strathfield Community by:

- Providing a warm, caring, stimulating environment that meets the developmental needs of each child and to know each child, based on observation and interaction and to provide them with experiences that meet each child's unique interests and development appropriate for school age children.
- Offering a comprehensive, integrated service including care, education, health, safety and nutrition programs which work to foster all aspects of children's development.
- Working collaboratively with families and community organisations at all times.
- Work with and include the children at the centre so their needs are fully catered for.
